1 – INTRODUCTION

This report has been produced to support the development of the Werrington Neighbourhood Plan. It compiles a range of published data/statistical information to prepare a detailed profile of the Neighbourhood Plan Area and local population in terms of its:

Demography (Population)

- Housing profile
- Socio-economic characteristics
- Economy
- Health
- Local labour market and
- Deprivation statistics.

This profile helps to inform the development of the vision and objectives for the Neighbourhood Plan and the policies contained in the Neighbourhood Plan.

The Designated Area for the Werrington Neighbourhood Plan was put together and consulted on during 2018/19 as part of the formation of Werrington Area Forum. A summary of how the boundaries of the Neighbourhood Plan Area was selected is below:

- The Werrington Parish Boundary extends to the north and into Bretton.
- The previous political ward of South Werrington extended up to Gunthorpe Road forming the boundaries of Werrington Neighbourhood Council and Community Association.
- The current political ward of Werrington does not include the southern and eastern part of Werrington. Gunthorpe Ward, which covers these areas of Werrington, also extends south beyond Gunthorpe Road
- Those residents with a postal address of Gunthorpe (i.e., roads coming off Gunthorpe Road) generally consider themselves to live in Gunthorpe and not Werrington.
- After long consideration and consultation, Werrington's Neighbourhood Plan Area was selected as that area traditionally seen as Werrington. It uses the Parkways, railways, and Werrington Brook as the boundary for the most part. In the southeast the criteria of roads coming off Fulbridge Road is used (rather than Gunthorpe Road).

The Neighbourhood Plan area is shown below and is referred to as the 'Werrington Neighbourhood Plan Area,' 'WNP Area' or 'Designated Area.'

A range of published data has been used to compile this report: Ward, Lower Layer Super Output Areas, or Post Code. The extraction of data has been difficult given that the boundaries of the Neighbourhood Plan area does not follow a Parish nor Ward boundary. The fragmentation of the Gunthorpe has given particular problems. A summary of the problems is given below:

- Demographic and socio-economic data is not routinely collected or published for areas that do not follow administrative boundaries.
- The Office for National Statistics (ONS) uses Output Areas (OAs) as the building block for their statistical geography with an average of 300 people per OA. The best for the Neighbourhood Plan area has 43 OAs within it.
- Lower Super Output Areas (LSOAs) are an aggregation of OAs. There are eight LSOAs that best match the Werrington Neighbourhood Plan area. However, Cambridgeshire Insight appear to use only six LSOAs when presenting Index of Multiple Deprivation data for Werrington.
- The Middle Super Output Areas (MSOA) are a poor fit for the Neighbourhood Plan area. Four MSOAs cover the area but these also extend well beyond Werrington into neighbouring rural parishes such as Glinton.
- When using the Office of National Statistics, most of the data can be extracted by using output areas. Even then exact area could not be replicated, and the best fit area is seen in the maps below.

- The PE4 postal area is also a poor fit for the Neighbourhood Plan area extending well into Walton and Paston
- The problems are exacerbated by ward boundary changes since the publication of 2011 Census. The current ward (2018) of Werrington excludes the parts of Gunthorpe ward that fall into the Neighbourhood Plan area but is otherwise a good fit. In 2011 there were two wards, Werrington North, and Werrington South, which provided a better, though not perfect, fit with the Neighbourhood Plan area.
- The publication of the 2021 Census figures has been spasmodic through the development of the Plan. Even when data was published it was not available at a detailed local level.

Maps showing how the boundaries align of these different areas are shown below.

These difference in the areas of the data sources must be borne in mind when reviewing the data presented and when comparing the 2011 and 2021 Census data but this should not detract from the overall conclusions in the Executive Summary.

2 – EXECUTIVE SUMMARY

DEMOGRAPHY

Werrington Neighbourhood Plan Area saw rapid expansion over the 1980s and 1990s with the development of the Township Area. Between 2011 and 2021, however, the population of the Werrington Neighbourhood Plan Area stabilised with 12551 residents in 2011 compared to 12119 in 2021, a slight reduction of 2.8%.

A notable characteristic of the Neighbourhood Plan Area is the high proportion of older residents which is substantially higher than ten years ago with the number of residents over 60 increasing significantly. Correspondingly residents under 30 have decreased significantly showing how quickly the population of the Neighbourhood Plan Area is ageing. The average age of residents is 41 years while the average age for all residents living in Peterborough is 37 years old. Households aged over 65 also form a higher percentage than Peterborough. The Neighbourhood Plan Area is family-orientated with 75% of households being one-family households and 48% being a family with dependent children.

The vast majority of Neighbourhood Plan Area residents were born in this country, are White and are either Christian or practice no religion which contrasts significantly with the figures for the residents of Peterborough.

Werrington Ward is not expecting any substantial growth in population over the coming years especially when compared to the prospective growth rates of Peterborough. The forecast, however, confirms that the ageing population of Werrington will continue over the next 20 years which will impact on demand for certain housing and demand for local services.

HOUSING

The number of properties within the Werrington Neighbourhood Plan Area equates to 5,582 dwellings. Of these properties 90% are whole properties or bungalows, 9% were flats, maisonettes, or apartments and 1% were caravans or other mobile structures. There is a high number of detached properties, 45.3 % of all dwellings, 29.3 % are semi-detached and 15% are terraced properties. These figures show a significantly higher proportion of detached houses and fewer terraced houses when compared to Peterborough and England. Given the high number of detached dwellings, it is not surprising that the average number of bedrooms at 2.8 and number of rooms in properties was also higher when compared to Peterborough. The predominance of larger, detached housing restricts the ability for those on average salaries to move to the Neighbourhood Plan area and has impacted on the reduction of younger working age residents, the higher level of employment and the types of employment predominant in the Area. The higher proportion of bungalows is indicative of the higher proportions of older people in Werrington.

The housing tenure survey shows that the Werrington Neighbourhood Plan Area has a higher proportion (15% higher) of owned properties in comparison to the average in Peterborough. Both the tenures of social rent and private rent are lower in the Area in comparison to the average in Peterborough. However, there is an anomaly as the 2011 Census differentiates between social rent from a Local Authority and social rent from another source (a Housing Association). This question was poorly answered in the Census questionnaires. Many people selected 'social rent from a Local Authority' even when the local Authority had transferred all its housing stock to a Housing Association. This was the case in Peterborough where all council housing was transferred to Cross Keys Homes (before the 2011 Census).

Werrington Neighbourhood Plan Area has a large number of households with two or less people living when compared to Peterborough (69% compared to 60.4%). This corresponds with the substantially higher levels of under-occupancy (78.2% compared to 65.3% for Peterborough) and the lower occupancy rate per bedroom (68.48% for 0.5 to one person per bedroom when compared to 59.94% for Peterborough).

Housing prices within Werrington Neighbourhood Plan Area are on par with the rest of Peterborough but detached houses are on average cheaper than Peterborough perhaps reflecting the high number of available properties. Similarly, house prices are stable within the Area and are quick to sell when compared to Peterborough although this is not the case for £400000 to £500000 which again may reflect the larger numbers of such houses.

ECONOMIC ACTIVITY

In 2021 Werrington Neighbourhood Plan Area has lower levels of employment at 49% when compared to Peterborough at 52% in Peterborough overall and there are low levels of unemployment at 2.5% when compared to Peterborough at 3.7%. Again, this is reflective of the high number of retired residents at 28.5% which is 70% higher than Peterborough. Whilst there was a slight reduction in employed and unemployed residents between 2011 to 2021 the numbers of retired residents correspondingly increased.

Within the Neighbourhood Plan Area itself, business administration is the highest employer followed by transport and storage (due to the Post Office Parcel Depot) followed by Education (due to the four schools). The Area is, therefore, a large employment area despite not having any large industrial estates nor employers (other than the Post Office). The employee figure of 5145 represents approximately 5% of Peterborough's total employment of 114,180.

There is a significant number of full-time employed people in white collar occupation with 25% being management or professional roles. This is reflective of the area having a well-qualified adult population with 35% of adults being educated to A-level standard or above.

DEPRIVATION

Of the five LSOAs that Werrington Ward is divided into, four are rated in the top 50% and one are falls in the bottom 20% across England when measuring overall deprivation. Therefore, whilst there are some contrasting areas within Werrington Ward, overall, the deprivation levels are low in the Area which is reflective of the high levels of employment.

TRANSPORT

Within Werrington Neighbourhood Plan Area, 9% work from home, 70% drive a car to work with 6% as a passenger and 6% cycle to work. The level of car usage for employment reasons is 30% higher than for Peterborough overall. 83% of residents have access to a car compared to 75% in Peterborough overall. Despite Werrington having a range of local services and an Industrial Area, the vast majority of residents work outside of the Area. A sizeable number of residents travel some distance to work reflecting the range of occupations, car accessibility and ease of commuting by train especially to London.

HEALTH AND DISABILITY

In the 2011 Census, only 17.5% of residents living in the Neighbourhood Plan Area said that their day-to-day activities were affected a little or a lot by a long-term health problems or disability and 4.82% said that they had bad or very bad health. Both these figures are lower than Peterborough despite the much older age profile. This suggests that Neighbourhood Plan Area residents are overall healthier than Peterborough residents which could correspond to the higher living standards provided by lower unemployment levels.

CRIME

Figures provided by Police UK show that Werrington has about half the reported crime figures than Peterborough with 60 reported per 1,000 residents. This is consistent with resident's views that Werrington is generally considered to be a safe place to live despite areas of anti-social behaviour.

3. DEMOGRAPHY

Key Statistic D1: *Werrington Neighbourhood Plan population has reduced from 12551 people to 12119, a reduction of 2.8% between 2011 and 2021.* A notable characteristic in 2021 was the high proportion of older population in with over 55% of residents being over the age 45 being substantially higher than ten years earlier when the figure was 48%, and the number of people over the age of 60 increased from 25% to 32%. Correspondingly under 30s form 28% of the population, decreasing from 33% ten years earlier.

Age	Number of residents in Designated Area		% of WNP Area's Population (approx.)		% of Peterborough's Population (approx.)	
	2011	2021	2011	2021	2011	2021
Under 18	2490	2255	20%	19%	24%	27%
Age 18 to 30	1620	1142	13%	9%	17%	12.5%
Age 30 to 44	2416	2132	19%	16%	21%	23.1%
Age 45 to 59	2898	2642	23%	22%	18%	18.5%
Age 60 to 75	2037	2518	16%	21%	12%	12.6
Age 75+	1090	1430	9%	12%	7%	6.4%
Total:	12551	12119				

Figure 8: Werrington Neighbourhood Plan Area's Population Profile by age in 2011 and 2021 compared to Peterborough. (Source: 2011 and 2021 Census, Office for National Statistics).

Key Statistic D2: *The number of people over the age of 60 had increased from 25% to 32% whilst the number under the age of 30 reduced from 43% to 28%*

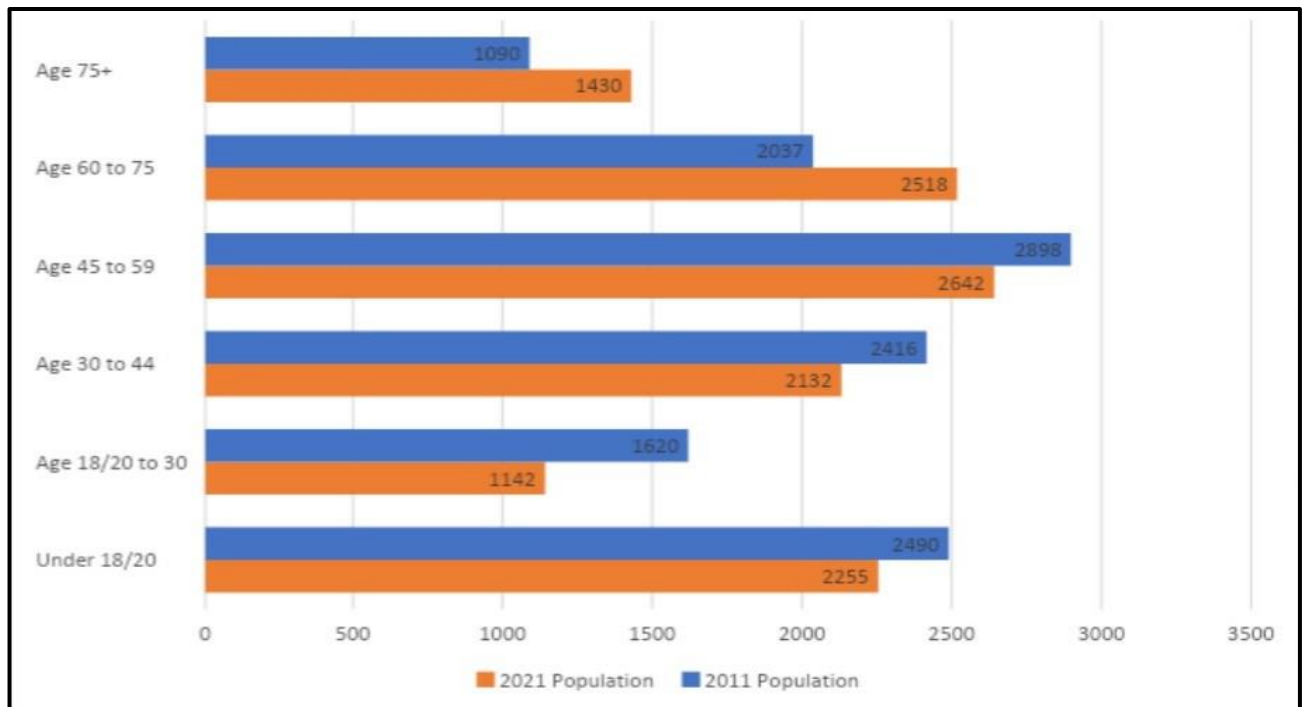

Figure 9: Graph showing the Neighbourhood Plan Area's Population Profile by Age comparing 2011 to 2021. (Source: 2011 and 2021 Census, Office for National Statistics)

Key Statistic D3: The forecast figures for Werrington Ward show that this area is expected to increase by 9% between 2021 and 2041 compared to the 13.5% increase for Peterborough. There is an expected significant reduction in the expected numbers of under 15s at 20% although the over 65s are expected to increase by 25%.

	AGE RANGE								
	0 to 4	5 to 14	15 to 24	25 to 44	45 to 64	65 to 74	75 to 84	Over 85	Total
Werrington 2021	420	1070	885	2365	2930	1170	730	240	9825
Peterborough 2021	14280	31228	24265	65400	50490	16800	9825	4060	216345
Werrington 2026	380	1005	950	2275	3005	1185	850	250	9900
Peterborough 2026	13555	30680	27190	66045	53875	17625	11820	4330	224920
Werrington 2031	370	885	1025	2130	3055	1300	900	280	9945
Peterborough 2031	14035	28745	30750	66370	57345	20005	12960	4960	235160
Werrington 2036	385	860	1000	2135	3145	1395	945	345	10205
Peterborough 2036	14845	28330	30360	67855	60615	21915	13925	6190	244035
Werrington 2041	390	865	900	2095	3235	1390	1070	375	10315
Peterborough 2041	15005	28760	27530	67090	62370	21975	15870	6735	245335

Figure 10: Table showing the population forecast for Werrington Ward from 2021 to 2041 compared to Peterborough (Source: Cambridgeshire County Council's 2021-Based Population Forecasts by Age Group and Ward for Peterborough www.cambridgeshireinsight.org.uk)

Key Statistic D4: Werrington Neighbourhood Plan Area is a predominately White with a very low proportion of people from Minority Ethnic groups especially when compared to the average for Peterborough.

Ethnic Group	Number of residents in WNP Area	% of WNP Area's Residents (approx.)	% of Peterborough's Residents (approx.)
White	11744	94%	82%
Mixed	246	2%	3%
Asian	378	3%	12%
Black	150	1%	2%
Other	33	<1%	<1%

Figure 11: The Neighbourhood Plan Area's ethnicity in 2011 compared to Peterborough (Source: 2011 Census, Office for National Statistics)

Key Statistic D5: *Whilst a range of religions are presented, most residents identify themselves as Christian significantly more than Peterborough. There are similar proportions of residents identifying as having no religion or not stating when compared to Peterborough.*

Religion	Number of residents in WNP Area	% of WNP Area's Residents (approx.)	% of Peterborough's Residents (approx.)
Christian	8129	64.8%	56.7%
Buddhist	20	0.16%	0.3%
Hindu	115	0.9%	1.3%
Jewish	20	0.16%	0.1%
Muslim	183	1.6%	9.4%
Sikh	28	0.15%	0.6%
Other religions	33	0.26%	0.3%
No religion	3140	25%	24.6%
Religion not stated	883	7%	6.7%

Figure 12: The Neighbourhood Plan Area's religious breakdown in 2011 compared to Peterborough. (Source: 2011 Census, Office for National Statistics)

Key Statistic D6: *Whilst a range of places of birth are presented, most residents were born in United Kingdom, significantly more than Peterborough. There were significantly fewer residents born in Other Europe than when compared to Peterborough.*

Country of Birth	Number of residents in WNP Area	% of WNP Area's Residents (approx.)	% of Peterborough's Residents (approx.)
United Kingdom	11536	91.92%	79.39%
Ireland	59	0.47%	0.62%
Other Europe	449	3.58%	10.57%
Africa	188	1.50%	2.3%%
Middle East & Asia	216	1.72%	6.20%
America & Caribbean	90	0.71%	0.92%
Antarctica & Oceania	12	0.96%	.001%
Other	1	0	0

Figure 13: Place of Birth of the Neighbourhood Plan Areas in 2011 compared to Peterborough. (Source: 2011 Census, Office for National Statistics)

Key Statistic D7: *Werrington Neighbourhood Plan Area is family-orientated with 75% of residents live in a one-family household and 48% of residents live as a family with dependent children which is a slightly higher figure to Peterborough. Residents living in a household aged over 65, especially single persons, also form a higher percentage than Peterborough.*

Household Composition	Residents in WNP Area	% of WNP Area's Residents (approx.)	% of Peterborough's Residents (approx.)
Single person over 65	730	5.87%	5.06%
Single person under 65	871	8.00%	8.23%
One family over 65	1078	8.67%	6.5%
One family with no or non-dependent children	3334	26.82%	26.36%
One family with dependent children	5958	47.92%	45.44%
Other households with no or non-dependent children	431	3.47%	5.75%
Other households with dependent children	31	.25%	3.75%

Figure 14: Household Composition of the Neighbourhood Plan Area in 2011 compared to Peterborough (Source: 2011 Census, Office for National Statistics)

4 - HOUSING

Key Statistic H1: *The majority of properties within the Werrington Neighbourhood Plan Area are detached (2,526 dwellings), the equivalent of 45.3 % of all properties, 29.3 % are semi-detached (1,624 properties) and 15% are terraced properties (833 properties).*

Type of accommodation	Number in WNP Area	% (approx.)
Whole house or bungalow: Detached	2529	45.3%
Whole house or bungalow: Semi-detached	1642	29.3%
Whole house or bungalow: Terraced (including end-terrace)	833	15.0%
Flat, maisonette or apartment: Purpose-built block of flats or tenement	447	8.0%
Flat, maisonette or apartment: Part of a converted or shared house (including bed-sits)	29	0.5%
Flat, maisonette or apartment: In a commercial building	16	0.3%
Caravan or other mobile or temporary structure	88	1.6%

Figure 15: Type of accommodation within the Neighbourhood Plan Area in 2011 (Source: 2011 Census, Office for National Statistics)

Key Statistic H2: *Comparing Werrington Ward to Peterborough and England shows significantly higher proportion of detached houses and few terraced houses when compared to Peterborough and England.*

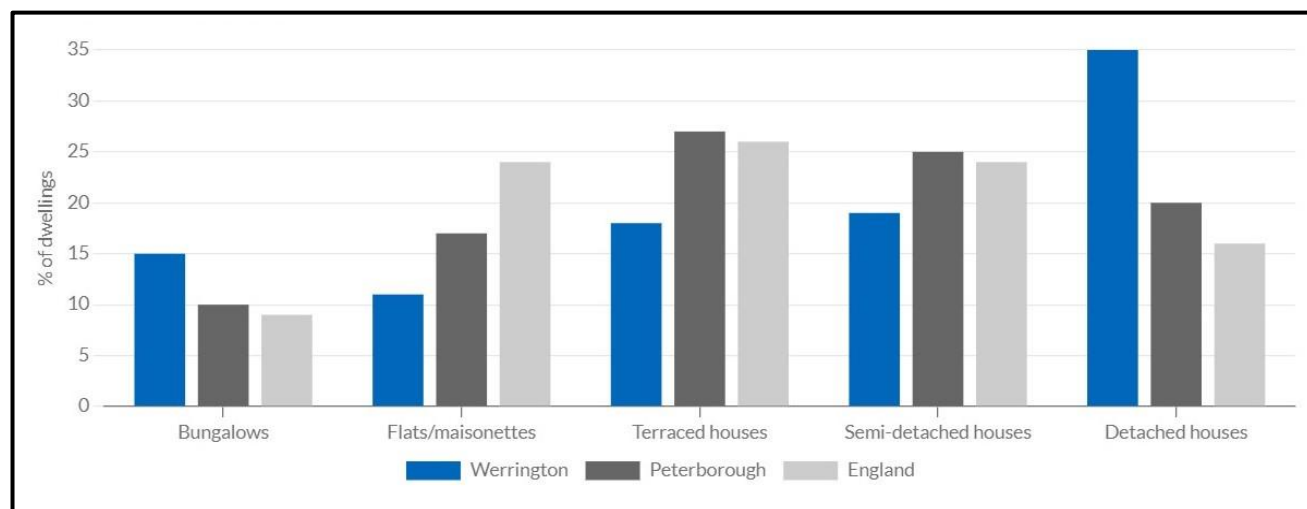

Figure 16: Types of accommodation within Werrington Ward compared to Peterborough and England. (Source: Cambridgeshire Insight)

Key Statistic H3: *The housing tenure survey shows that the Werrington Neighbourhood Plan Area has a higher proportion (15% higher) of owned properties in comparison to the average in Peterborough. Both the tenures of social rent and private rent are lower in the Werrington Neighbourhood Plan area in comparison to the average in Peterborough.*

(Note: There is an anomaly as the 2011 Census differentiates between social rent from a Local Authority and social rent from another source (a Housing Association). This resulted in a poor answer in the Census questionnaires with many people selecting 'social rent from a Local Authority' even when the local Authority had transferred all its housing stock to a Housing Association. This was the case in Peterborough where all council housing was transferred to Cross Keys Homes (before the 2011 Census).

Tenure	Numbers of properties in WNP Area	% of properties in WNP Area (approx.)	% of properties in Peterborough (approx.)
Owned			
Owned Outright	1,895	34%	26%
Owned with a mortgage	2,202	40%	33%
Part Owned/Part Rent (Shared Ownership)	63	1%	1%
Social Rent (see note above)			
Rented from the Local Authority	120	2%	6%
Other social rent	433	8%	13%
Private Rented			
Private landlord/Letting Agency	689	13%	18%
Other	56	1%	2%
Living rent free	44	1%	1%

Figure 17: Housing Tenure within the Neighbourhood Plan Area compared to Peterborough in 2011 (Source: 2011 Census, Office for National Statistics)

Key Statistic H4: *Werrington Neighbourhood Plan Area has a large number of households with two or less people living when compared to Peterborough.*

Household size	% in WNP Area (approx.)	% in Peterborough (approx.)
1 person per household	30.2%	27.8%
2 people per household	38.8%	31.6%
3 people in household	16.2%	17.2%
4 or more people in household	14.9%	23.4%

Figure 18: Household size within the Neighbourhood Plan Area compared to Peterborough in 2021 (Source: 2021 Census, Office for National Statistics)

Key Statistic H5: *The occupancy rating for Werrington Neighbourhood Plan Area of 78.2% for + 1 shows that the area has higher levels of under-occupancy when compared to Peterborough with only 65.3% under-occupancy.*

Note: This correlates to the occupancy rating, which shows if a household's accommodation is overcrowded, ideally occupied or under-occupied. Calculated by comparing the number of bedrooms the household requires to the number of available bedrooms, based according to the Bedroom Standard. An occupancy rating of -1 or less implies that a household's accommodation has fewer bedrooms than required (overcrowded), +1 or more implies that a household's accommodation has more bedrooms than required (under-occupied) whilst 0 suggests that a household's accommodation has an ideal number of bedrooms.

Occupancy rating	% in WNP Area (approx.)	% in Peterborough (approx.)
+2 or more	47%	33.7%
+1	31.2%	31.6%
0	20.1%	28.6%
-1	1.5%	5.0%
-2 or more	0.2%	1.1%

Figure 19: Occupancy rating for bedrooms within the Neighbourhood Plan Area compared to Peterborough in 2021. (Source: 2021 Census, Office for National Statistics)

Key Statistic H6: *Households within Werrington Neighbourhood Plan Area have a lower occupancy rate per bedroom on average than compared to Peterborough.*

Number of persons per bedroom in household	Number of persons in WNP Area	% in WNP Area (approx.)	% in Peterborough (approx.)
Up to 0.5 persons per bedroom	2009	16.12	13.21
Over 0.5 and up to 1.0 persons per bedroom	7022	56.36	46.73
Over 1.0 and up to 1.5 persons per bedroom	2421	19.43	22.71
Over 1.5 persons per bedroom	1007	8.08	17.56

Figure 20: Persons per bedroom within the Neighbourhood Plan Area compared to Peterborough in 2011 (Source: 2011 Census, Office for National Statistics)

Key Statistic H7: *The average market price in Werrington Ward when compared to Peterborough and England shows that house prices are generally on par with the rest of Peterborough although detached house prices are lower. The figures are affected by the fact that Werrington Ward has few flats and mobile homes are not included.*

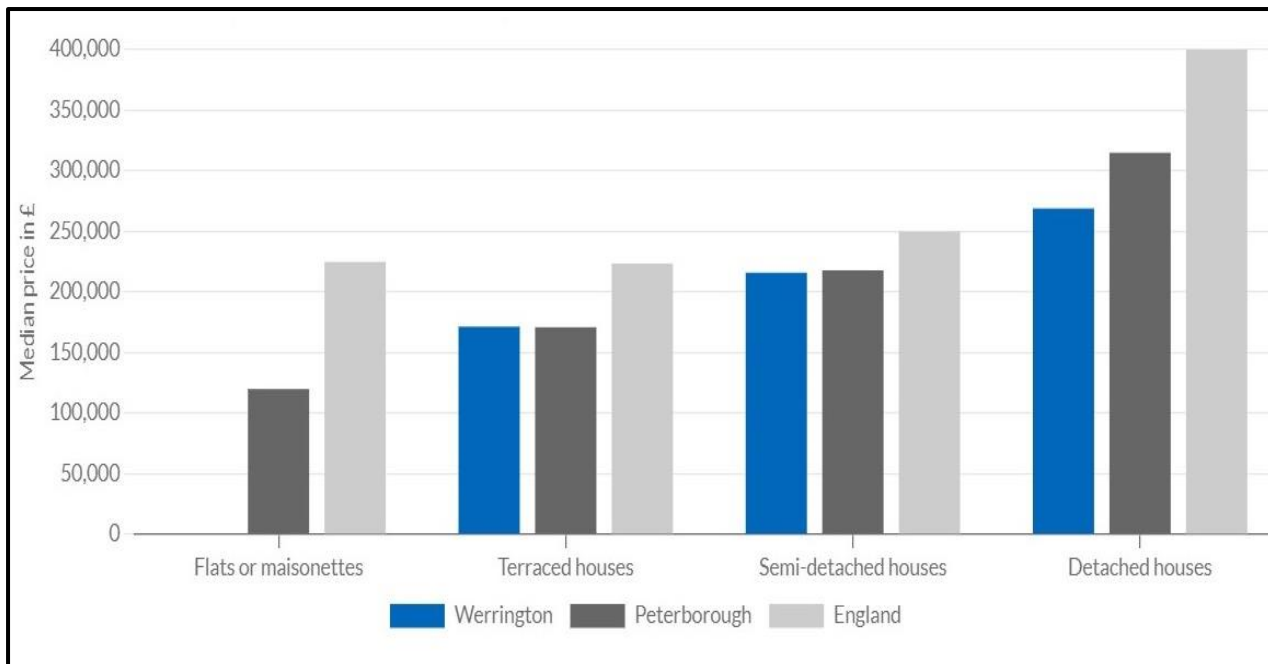

Figure 21: Median property price by type (Apr 2021 - Mar 2020) Werrington Ward compared to Peterborough and England. (Source: Valuation Office Agency, Cambridgeshire Insight)

Key Statistic H8: *Data in the following table shows the relative stability of the housing market in Werrington Ward and shows that houses are quick to sell with in PE4 when compared to the rest of Peterborough.*

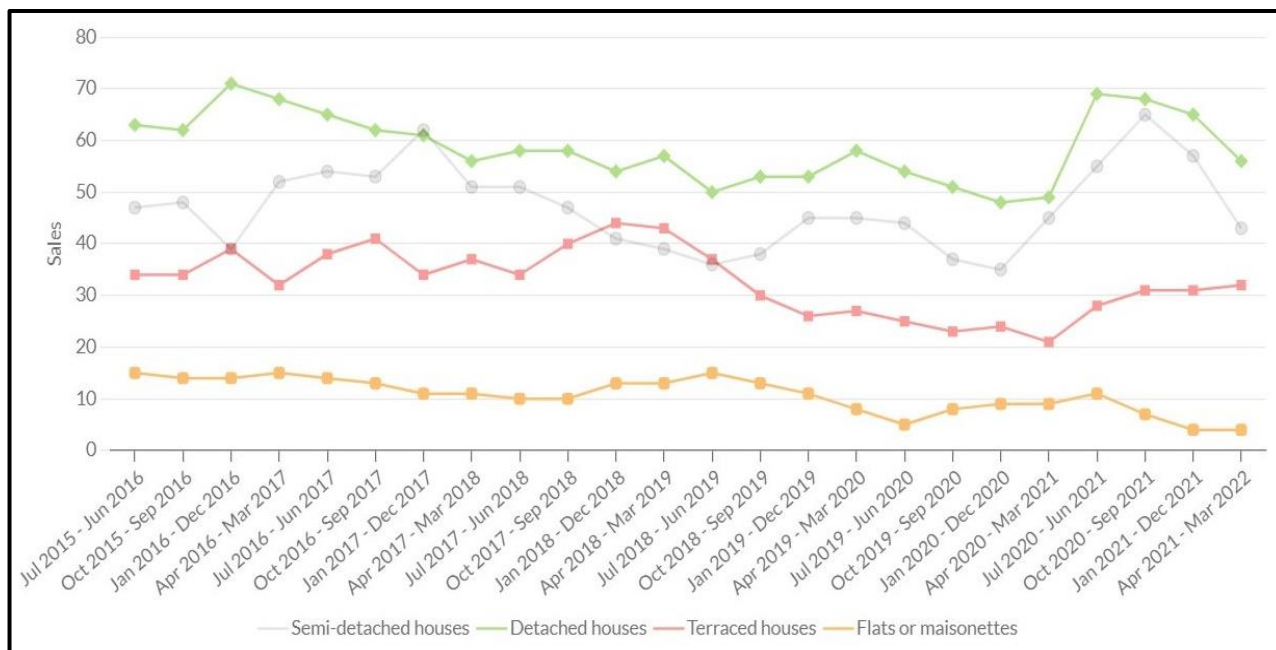

Figure 22: Residential property sales by type for Werrington Ward between 2016 and 2022. (Source: Office for National Statistics)

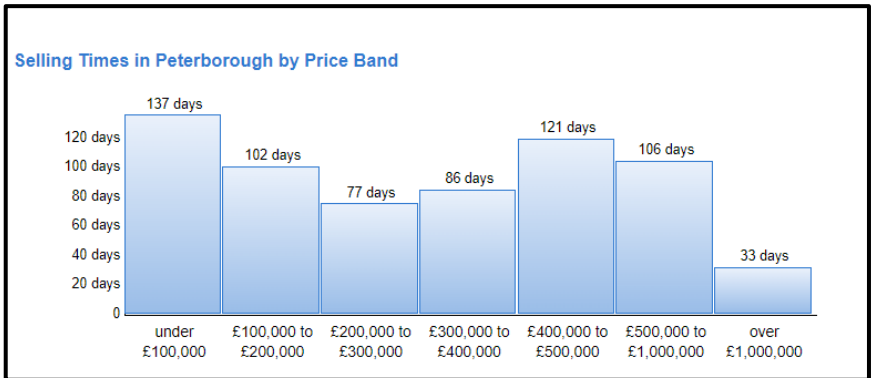

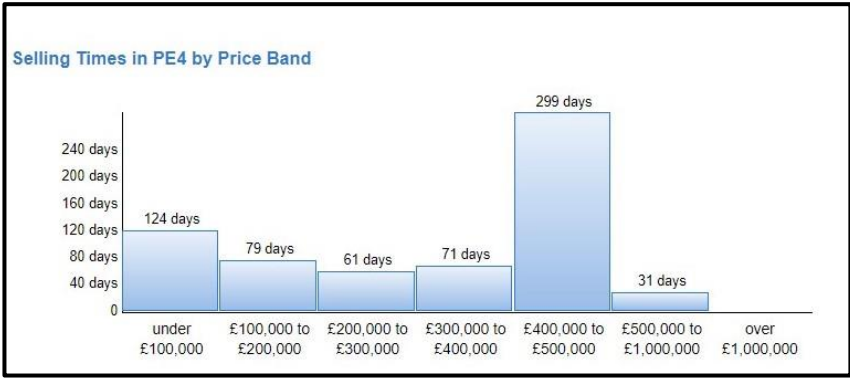

Figure 23: Selling times by Price Range in PE4 compared to Peterborough (Sept 2022 to December 2022) (Source: www.home.co.uk)

5 – ECONOMIC ACTIVITY

Key Statistic W1: In 2021 49% residents within the Werrington Neighbourhood Plan Area were in employment compared to 52% in Peterborough overall, but with only 2.5% residents unemployed which is a lower figure than 3.7% in Peterborough overall. A key figure is the number of retired people at 28.5% which is 70% higher than Peterborough. These can be compared to 2011 when there are slightly more employed and unemployed but less retired residents (based on the slightly larger Werrington/Gunthorpe Ward area)

Status	Number of WNP Area Residents		WNP Area Percentage (approx.)		Peterborough Percentage (approx.)	
	2011	2021	2011	2021	2011	2021
Employed	6516	5057	55.4%	49%	54%	52%
Self employed	822	795	7%	7.7%	7%	8.2%
Unemployed	418	256	3.5%	2.5%	5.3%	3.7%
Retired	2889	2946	24.5%	28.5%	18%	17.3%
Student	315	294	2.8%	2.8%	3.5%	4.4%
Looking after home or family	347	365	3%	3.5%	5%	6%
Long term sick	307	410	2.6%	4%	3.9%	4.4%
Other	150	208	1.3%	2%	2.6%	3.9%

Figure 24: Economic Activity of residents over the age of 16 living in the Neighbourhood Plan Area compared to Peterborough residents. (Source: 2011 Census, Office for National Statistics)

Key Statistic W2: The distance travelled to work by residents of the Neighbourhood Plan Area shows that the vast majority of residents work outside the Area.

Distance travelled to work	Number of WNP Area Residents	WNP Area Percentage (approx.)
Less than 2km	875	14%
2km to 5km	1116	17%
5km to 10 km	2482	38%
10km to 20 km	289	5%
20 km to 30 km	149	2%
30km to 40 km	176	3%
40 km to 60 km	133	2%
Over 60km	320	5%
Work from home	511	8%
Other	405	6%

Figure 25: Distance that residents of the Neighbourhood Plan Area travelled to work in 2011. (Source: 2011 Census, Office for National Statistics)

Key Statistic W3: The table shows that there is a wide but evenly spread range of occupations of residents living in the Neighbourhood Plan Area. There is a significant number of full-time employed people in white collar occupation with 25% being in management or professional roles. 9% work from home. (2021 Census, Office for National Statistics).

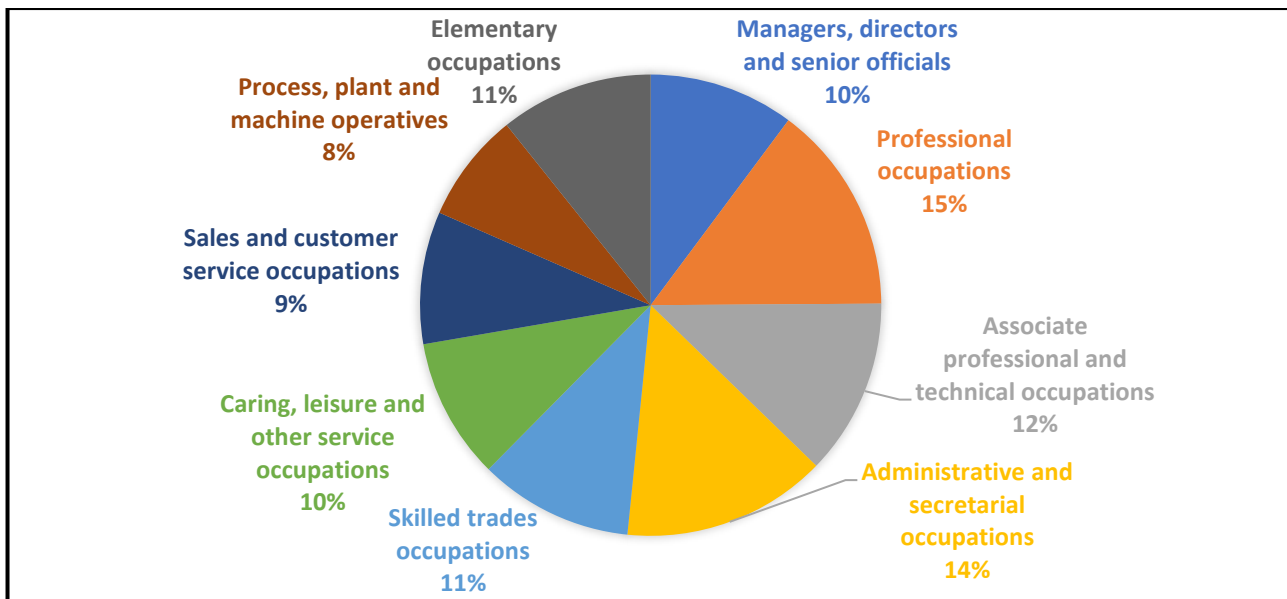

Figure 26: Occupation of residents residing in the Neighbourhood Plan Area in 2011. (Source: 2011 Census, Office for National Statistics)

Key Statistic W4: The key employers within the Werrington Neighbourhood Plan Area are business administration, transport, and storage (including postal) and education. There are few manual employees employed within the Area.

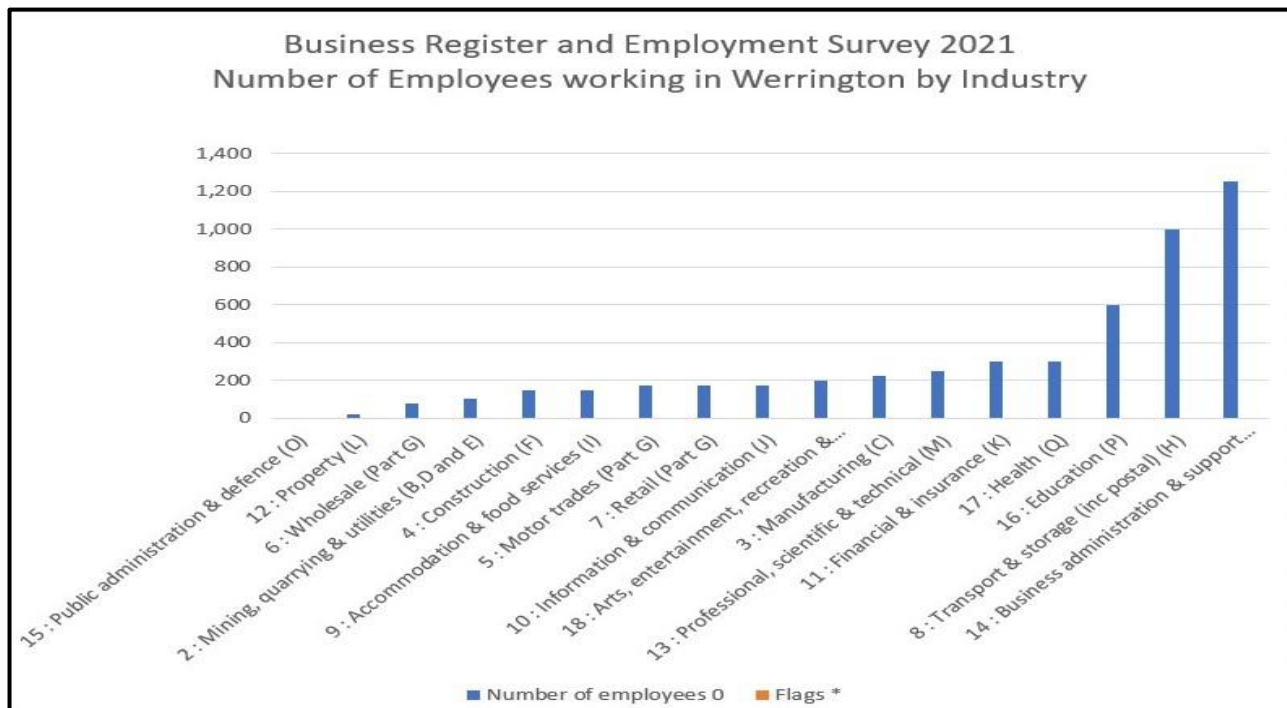

Figure 27: Number of employees working in Werrington Ward by Industry in 2021. (Source: Business Register and Employment)

Key Statistic W5: *Fewer residents of the Werrington Neighbourhood Plan Area had no qualifications and more had at least Level 4 than Peterborough. There were however fewer vocational qualifications. Therefore, residents within the Area are generally more highly qualified than Peterborough.*
